

First Degree, Don't Know Me

Everything passes and changes
Sometimes the thoughts they ain't timeless
Wondering about myself
Can not make decisions

Confusion that's what I feel now
Way to go on, don't know how
What have I done
Labyrinth of thoughts

I don't know me

Getting angry though I wanna be nice
I'm so sorry when I see your big eyes
What have I done
Didn't want to hurt you

Crazy feeling gets me out of control
My brain feels like an empty hole
What's going on
Can not get out of this circle

Often life becomes a strange game
Can not remind what's its name
What's happening now
Nothing to win or loose
