

# First Degree, Ordinary Song

All I need to get along  
Just an ordinary song  
What brings me through the night  
Is an ordinary song to feel alright

I sing along  
Just an ordinary song  
Gives me the drive  
In this ordinary life

All I need to get along  
Just an ordinary song  
Strings tell more than my own tongue  
Just an ordinary song

I'm not the one to make much money  
Just play music for my honey  
I'm not the one who brings her flowers  
Just my song says that I love her
