

First Degree, Still Dream On

It's the same nice feeling, yeah
Running through the north country side
Givin' all up and glide, say yeah

It's the same nice dream I had
Gonna find my soul ahead
It's a so right yeah yeah, say yeah

No no no, that all isn't real
I could still dream on
No no no, little tears in my eyes
Could be so nice

It's the same right beat, oh yeah
Getting to the old places now
Wishing to be like a child now, say yeah

It's the same great trip I wish
gambling through this wild landscape
Thinking about all those childhood days

I'm getting down tonight
This lonely light I can see
This all I criticize
These unfair rights
Couldn't be my believe
