

# Fish, Bandwagon

Bandwagon, it's coming into town  
To turn your life around  
And take you to the places that you once  
Could only dream of  
They'll be standing right there before your eyes  
And the heroes that you worship  
They'll be riding with you, up there by their side  
On the bandwagon, it's rolling into town  
Gathering the crowds to show them all the places that they once  
Could only dream of and put them right before their very eyes  
In the stories that they're selling for some pennies and a little of our time  
Well, well do I hear you say, I'm only dreaming  
That I'm staring out the window letting all my life just pass me by  
In my defence, listen to me I have never ever stopped believing  
That there's a better world out there waiting  
And that all I have to do is hitch a ride on the Bandwagon  
It's coming to my door  
I've been on it before  
And it took me to the places that I once  
Could only dream of they were standing  
Right there before my eyes  
And I can tell you the stories for  
Some pennies and a little of your time  
Bandwagon its coming into town  
To turn your life around  
And take you to the places that you once  
Could only dream of  
They'll be standing there before your eyes  
And the heroes that you worship  
They'll be riding with you, up there by their side  
On the bandwagon  
Here it comes  
(Dick/Paton/Boult/Usher/Paterson/Wilkinson)
