Fish, Boston Tea Party

[The Sensational Alex Harvey Band] (Alex Harvey) **Chorus** Are you going to the party? Are you going to the Boston Tea Party? Redcoats in the village There's fighting in the streets The Indians and the mountain men, well They are talking when they meet The king has said he's gonna put a tax on tea And that's the reason you all Americans drink coffee Chorus Fire in the mountains, flames upon the heath And the president spits out the news He's biting on wooden teeth The children of the colonies Got a different tale to tell I'm going down to the city Tell my folks I'm doing well Bringing back the buffalo to the long prairie Bringing back the fishes swimming in the sea The children of the colonies Got a different tale to tell

I'm going down to the city Tell my folks I'm doing well

Chorus
