

# Fish, Out Of My Life

The girl that I'm still dreaming of  
Is stepping with another guy  
In The dance floor in the centre of the room  
The record that they're dancing to  
Is the one we used to dance to  
I caught her smiling out the corner of her eye

It's not getting any easier, it's just getting harder  
It's not getting any easier, as the months go by

You can tell that I've been drinking  
But not as much as yesterday  
And not near enough to get you out of my life  
I don't know why you keep inviting me  
Or why I keep on coming  
But I just can't find the strengt to turn you down

It's not getting any easier, it's just getting harder  
It's not getting any easier, as the months go by  
There's got to be another way, there has to be another way  
I've got to find another way to stop hanging around your life  
I'm hanging around your life  
Get you out of my life, get out of my life

All our friends and family thought we were the perfect couple  
And I just can't figure how it all went wrong  
There's no one to replace you and you know that I've been trying  
It's as if you don't want to let me let you go

It's not getting any easier, it's just getting harder  
It's not getting any easier, as the months go by  
There's got to be another way, there has to be another way  
I've got to find another way to stop hanging around your life  
I'm hanging around your life  
Get you out of my life, get out of my life

Is this the way you're trying to show me  
That there isn't any hope for us  
That you never really needed me at all  
Or can you not admit you miss me  
That you need to have me near you  
Are you hurting just as much as me inside

It's not getting any easier, it's just getting harder  
It's not getting any easier, as the months go by  
There's got to be another way, there has to be another way  
I've got to find another way to stop hanging around your life  
I'm hanging around your life  
Get you out of my life, get out of my life

Get out of my life, out of my life  
Get out of my life, out of my life
