

# Five Foot Thick, Betrayed

Coward, now what you see is what you  
get, a fucking liar, you fucking liar  
you wanted sympathy I'll give you apathy  
couldn't be upfront you made a fool of me

Played me for a friend straight faced til the  
end gave my trust respect and in return you  
shoved a knife in my back

Anger, is all that's left inside of me your  
reflection, pure deception, truth and  
consequence you don't get push come to shove  
you're full of shit

Played me for a friend straight faced til the  
end gave my trust respect and in return you  
shoved a knife in my back

Betrayed - that's what I get for trusting you  
Sucked in - not the first to but the lies  
Remorse - emotions you have never felt  
Traitor - you only reap what you sow

Grow up, I think it's time you act your age  
not adolescent be independent you wanna hang  
a lie around my neck and leave eyes wide  
open who the fuck did you deceive

Played me for a friend straight faced til the  
end gave my trust respect and in return you  
shoved a knife in my back
