

# Five Foot Thick, Blood Puddle

See me I'm still here  
Laughin' at you through the fence  
Think I'd just go away  
Well now not a fucking Chance  
I exist to annoy you  
make your life a living hell  
Thought you could rid me  
Try but you will only fail

You should have killed me when you had  
the motherfuckin chance, it doesn't matter  
doesn't really make a difference I'm  
out for blood you'd better find a fuckin  
place to hide cause when I'm done you're  
gonna be the one who's gonna die

This is unreal  
how'd you take me for a fool  
soon this over  
Time to make my final move  
You've gotta admit it  
Knowin all you have to lose  
I'm playing the game now  
and changin every fucking rule

So what the fuck man couldn't do it  
your way thats alright cause I'd  
rather do it my way when it's all  
said and done you're gonna know  
that I have won cause you know I  
did it my way

You should have killed me when you had  
the motherfuckin chance, it doesn't matter  
doesn't really make a difference I'm  
out for blood you'd better find a fuckin  
place to hide cause when I'm done you're  
gonna be the one who's gonna die

Vowing for vegence  
living is the best revenge  
you've got a new problem  
tell me where's your fucking friends  
pulling no punches  
this is coming to a head  
do this my own way  
bring it to a bitter end

You should have killed me when you had  
the motherfuckin chance, it doesn't matter  
doesn't really make a difference I'm  
out for blood you'd better find a fuckin  
place to hide cause when I'm done you're  
gonna be the one who's gonna die

You see comin man you better walk the other way  
I didn't start it but I'll probably get the  
fuckin blame you can't hide me you won't bind me  
you'll never beat me you'll never fight me

My frustration it seems they've got the best  
of me Will I live to see another fuckin day [x4]  
NO!
