

# Five, Rock The Party

(C'mon)

My time to burn so sit back and check  
The way I come through in the discotheque  
I know you like what I got, my style, the original  
Seventees dancefloor hot new material  
Name ain't me down then you wait ain't  
Come in, guestlist on the door  
You plus to friends  
As longs as they're female and got a fit ass  
Pole osition never coming in last

Bass line yeah you know it's gonna get ya (yeah)  
Free your mind if the system will let ya  
Peace time so it's time to shout  
Guys in the back throw your hands about

Rock the party  
(We can go through the night)  
If you livin' it up we're gonna let ya  
If you givin' it up we're gotta get ya  
Rock the party  
(If you feelin' alright)  
When you're having a good time together  
And the Saturday night lasts forever

(Right about now...)  
(C'mon)

You can't hold me back  
I rock the dancefloor  
Make a honey shake her booty  
So I kick it some more  
You know the score  
How they rock a freaky move up on the spot  
Never wanna stop, temperture is hot  
Now visual contact, I've got all that  
Make 'em booty for me when I verbally freak that  
Line after line  
Keep on hitting with my rhyme  
Now what ya gotta do is bring your body next to mine  
Check it out

Bass line if you know it's gonna get ya (yeah)  
Free your mind if the system will let ya  
Peace time so it's time to shout  
Guys in the back throw your hands about
