

# Fivio Foreign, Changed On Me (feat. Vory & Polo)

Hey, feel like some niggas done changed on me  
Hey, I never thought he would change on me  
Hey, I was livin' with this money with pain on me  
Yeah, I get deep in my thoughts like I'm brainstorming  
I been, I been on and off the grid  
I been out the way instead  
I been accepted what it is  
I been a stepper since a kid  
Yeah, I been a stepper since a kid, hey (Fivi)

Yeah (Yeah), it's the baddest selection  
We got an army, we hire a shooter  
If he got the drop then he had him a reference (Grrt)  
You niggas could die in a matter of seconds (Baow)  
He gon' answer me, no matter the question  
I talked to God and I had a confession  
More money, more problems, I'm mad at the blessings  
And I pulled my body on a provin' ground  
Since youngin' I know how to move around  
Get the addy, we pull up and shoot him down  
Better watch how you move in that hookah lounge  
Boy, you show me in person, come through it now  
You need to keep your lil' word and then do a woe  
Nigga why you think I feel like you a clown?  
I would never agree with what you allow, what you allow (What you allow)  
The bigger GAT (Big GAT)  
If he want space, I'ma give him that  
I don't never want none of you niggas back (Nah)  
Nigga, as soon as she see me, she get attached  
See these niggas fienin' to give me daps  
But he need the lil' bitch to get him gas  
(But he need the lil' bitch to get him gas, hah)  
Yeah, and they want me to be the bigger man  
No apologies, and they want me to share their single on Instagram  
You tried some brand new shit that didn't land  
And I know they gon' call when it hit the fan  
I was young but I grew to a different man  
Niggas hatin' like "How they get the advance"  
He was workin' (Workin'), he was workin', huh  
They tried to fuck him, but he's not a virgin  
He was kid, then he grew to a person  
He had to get rid of the snakes and the serpents  
He had to fuck all the bitches that curved him  
Het cut 'em off, 'cause they didn't deserve him  
They didn't deserve him (Nah)

Hey, feel like some niggas done changed on me  
Hey, I never thought he would change on me  
Hey, I was livin' with this money with pain on me  
Yeah, I get deep in my thoughts like I'm [?] on it  
I been, I been on and off the grid  
I been out the way instead  
I been accepted what it is  
I been a stepper since a kid  
I been a stepper since a kid, (Uh) hey

One down on 'em, bitch, I'ma step 'til my soles crack  
I be tryna cool down out that savage shit  
But I can not control how the bros act  
Took too many losses, can't hold back  
Fuck all the cap, these cold facts  
'Member back then nobody showed up  
Hit the stage and I open, my shows packed  
It's too easy to drill shit (Drill shit)

They should know where I'm from, Chicago  
I was walkin' through blocks tryna kill shit  
I was really at the stu' with Pop Smoke  
They can go 'head keep on gassin' him up 'til his ass get filled with hallows  
All this fame be too much to deal with  
They clout chase, but the truth what I know, uh  
I'm with the steppers and we like a band in the field  
'Cause we drummin' and ready to march  
I know some niggas that changed they know what to feel  
Left me with the heaviest heart  
I had to grind all of them nights  
Just 'cause of my skill made it look like it's barely as hard  
Look up and I took off on all these niggas  
I know that they wishin' I left it in park, gang

Hey, feel like some niggas done changed on me  
Hey, I never thought he would change on me  
Hey, I was livin' with this money with pain on me  
Yeah, I get deep in my thoughts like I'm [?] on it  
I been, I been on and off the grid  
I been out the way instead  
I been accepted what it is  
I been a stepper since a kid  
I been a stepper since a kid, hey
