

# Flame, Limelight

(Verse One)

Racism, rape victims, priest and sodomy  
Street people perishing from street theology  
Unlearned ministers criticize seminary  
While without a vision people perish there's no visionary  
First class, second class, third class citizens  
First Adam sinned then all became sinner men  
Sweet like cinnamon for those who've been redeemed  
And sour like lemons for those who have not been redeemed  
Guns cocked in politics tell me truth is relative  
We live in a time better to receive than to give  
Videos are raising kids, lose your life over them rims  
Little homies 13 smoking them Virginia Slims  
Look at the poverty, taxes are robbin' me  
Jesus come father me, Honestly God there's gotta be  
Some type of dodging the internet and its pornography  
Callin' my Savior, my Lord, who's offering me comradery

(Hook)

When truth hits the block the block should respond like  
"Who is Christ?" let's place Him in the Lime Light  
Forget later 'cause now dirty the times right  
The time is now the time is now

(Verse Two)

Horoscopes, palm readers, psychics, and astrologists  
Likened themselves to havin' knowledge yet it's obvious  
Post-modernism is taught in these secular colleges  
Science and evolution are tryin' to find the solution  
Denyin' the crucifixion, denyin' the resurrection  
Denyin' the second comin', they'll die in their destitution  
Picture blood drip from His pores hematidrosis  
Jesus is God even demons know this  
The winds and the waves even they obey yo  
Death and the grave even they obey yo  
Picture Him dressed in a robe dipped in blood  
Eyes like blazin' fire and equipped with love  
Ridin' a white horse with many crowns on His head  
He's comin' back already resurrected from dead  
Now as we partake of the Bread, think of the blood He shed  
Picture the Passover the wonderful things that He did

(Hook)

(Verse Three)

According to the Scriptures concerning the day of judgement  
A hush will reign and every secret made public  
A just God will justify and bring justice  
Either the gnashing of teeth but Jesus people will love it  
And when you study them Scriptures sin and death are the effects of the Fall  
And each aspect is affectin' us all  
So while God's looking down we look up and we laugh  
But humanity's standing under the cup of His wrath  
Since we seem to be so in love with reality shows  
Then why is no one open to see what reality shows  
Plus it's hard for me to even see the faith of atheists  
Who believe we evolved from apes, in place of His Sacredness  
Plus without Christ we're a guaranteed casualty  
'Cause instead of watchin' our life we'd rather watch our calories  
I know the truth will irritate like an allergy  
I'm just tryin' to open up hopin' to show you reality

(Hook)
