

# Flame, Open My Heart

(Intro)

I guess we all hurt sometimes  
So I find myself takin' it one day at a time ya' know  
Cause' ain't nothin' easy about this life here  
I must seek my Source, one day at a time y'all

(Verse One)

Nothing in this world will ever be peaches and cream  
That's just in everyday living not mentioning spiritual things  
I get sick and tired of hard times, It's hard to renew my mind  
Hard to put the past behind when ya' feelin' blind  
I grew up seeing the same ol' murdas  
Same ol' thugs in the same ol' swervas  
Sometimes I was afraid to walk through the 'hood  
I know we say it but ain't all good I'm keeping it real  
My daddy came home he was robbed  
Mom on disability and daddy lost his job  
So where that leave me at? I go to school wit dirty shoes and wack ball caps  
I'm in the hall catchin' all laughs  
I'm tryin' to stay focused 'cause this locust is real  
Went to kick it but my homie got killed  
I'm under all pressure  
The Lord blessed a young ghetto child like Flame  
I'm still living through the sufferin' and pain

(Chorus - 3X)

Lord I know that you already love me  
And you want me to walk by my faith  
But it's hard for me to see you when there's no good around  
So I need you to open my heart so I can love you more  
(While I'm livin' I'm a give you my all)

(Verse Two)

It kinda makes me laugh cause it's been a long time comin'  
Messed up so many times but yet I'm still growin'  
See it hurt when my grandmother died  
I'm in the hospital room over her bed lookin' her in the eyes  
She always said go to church and serve the Lord  
And put Him first over everything especially money and cars  
She had a major impact on who I am now  
Bowin' down worshipin' and sending praises up loud  
But yet she's gone and the same bad things are going on  
It's hard for lil' Flame to stay strong but yet I hold on  
Life is so short we only passing through  
Able to catch you a laugh or two  
I seen a lady last week gettin' beat down  
And thirteen year old girls gettin' freaked down  
Now you can tell we in the last days  
The world has turned away from God now we livin' in our own ways  
Since I have been saved the death angel has passed over  
My down was covered by the blood straight from Jehovah  
See I'm grateful, for the way of escape from bein' hateful  
The dollar doesn't make you, power doesn't make you  
I have seen it all nothin' new under the sun  
He made a way out so I had to run  
I'm tired of poverty, ghetto areas and trife livin'  
I'm tryin' to elevate to Christ livin', his righteous life we livin'  
Come on

(Chorus - 2X)

Lord I know that you already love me  
And you want me to walk by my faith  
But it's hard for me to see you when there's no good around  
So I need you to open my heart so I can love you more

(While I'm livin' I'm a give you my all)

(Verse Three)

Who else can fill the void straight from all the love that I lost  
Except the One who shed all his blood at the cross  
I didn't ask to be born into this world at all  
But through God's grace I was created to praise God  
But it gets really hard, I was born right into sin  
I was headed for hell before my life even began  
But since I'm here now through Christ I'll make the best of it  
I trust God so I'll let him do the rest  
How else could I have peace in this life of crime  
How else could I have peace when the battle's in my mind  
How else could I have peace with a broken heart  
I wish it was the end like Noah's ark  
It'll be all over, No more pain no more sufferin'  
No more games no more thuggin' no more hustlin'  
I praise God for eternal life the Mediator  
Who gave the ultimate sacrifice, and we call him Jesus Christ!

(Chorus)

(While I'm livin' I'm a give you my all) (7X)  
I want to love you Jesus, I want to love you love you  
I want to know you yeah yeah yeah  
Ooh Jesus, I want to know you know you  
So will you open my heart so I can love you, More (2X)  
Said I wanna be more like you yes  
Said I wanna know how you talked and how you walked  
Step by step I'll get there  
If you just hold my hand, and show me the way (2X)
