Flaming Lips & Bon Iver, Ashes in the Air

You and me
we?re both so f___ed up
you?re f___ed up in the good way
and I?m f___ed up in the bad

You and me
We thought we were so smart, so smart
We thought we could outrun them
But they had robot dogs

You and me
we?re both in the same hole /2x
but you dream of ways of leaving /2x
and I get used to the cold

You and me
we heard a sudden thud
but you ran in to save them
and I didn?t give a f_ck

You and me
our egos made from files
burning are out flosh off
till we?re skeletons ovelling withwires

You and me
saw the light of the ship get crossed
but it was up above us
it left us where we was

You and me
have learned that love is true
if you ask me how I know it
I?ll never lie to you
