

# Flapjack, Think Twice

You made a fool of your only  
friend  
That's what I can't stand, man  
You gotta try to realize that  
this seems to be a problem  
When you're both standin' face to face  
You should forget 'bout  
disgrace  
It's not concern of mine,  
But next time you gotta think  
twice  
Let your insert brain work  
You gotta try to stand strong, man  
try to make your spirit drill  
Love is not to be scared of  
Before You'll be ignored
