

# Flatt And Scruggs, I'll Never Love Another

I'll never love another now that you've gone away  
And left me here to grieve dear all alone  
It seems I always lose my dear no matter how I try  
I'll never love another until the day I die  
I'll never love another now that you've proved untrue  
Without your lovin' darling what am I to do  
I spend my life for you dear now you've left me blue  
I'll never love another if I can't have you

[ mandolin ]

My castle now has tumbled that we had built for two  
And all my dreams have vanished dear with you  
I'll find no one to take your place so I'll not even try  
I'll never love another until the day I die

[ fiddle ]

Now you don't know the heartaches you caused me to bear  
Or you would never stole my love from me  
I had to live my life alone and think of days gone by  
I'll never love another until the day I die  
I'll never love another...
