

Flee The Seen, Do You Think Dallas Is Still In Th

Tonight decide
To rise above yourself
Last chance, your choice
To rise above yourself
Youre going out again
Youre acting out again
Youre passing out again
Dont waste your breath on me
Im in control, Im doing fine
(But Im finding out youre going down)
Dont waste your time on me
This is my choice, This is my life
(But Im finding out youre going down)
Im sad but not surprised, your eyes
Cry panic
Please decide, to reside
In this promise
Youre sitting right across the room
I wish you only knew
How beautiful you are
Tonight decide to rise above yourself
Im sad but not surprised, your eyes
Cry panic
Please decide, to reside
In the promise
You are not alone, I promise
Youre so beautiful
You are not alone, I promise
Never forget
You are not alone, I promise
What its like
I promise
To be loved
I promise
