

Fleetwood Mac, I'm Worried

I'm Worried

(as done by Fleetwood Mac/Peter Green, I think from late sixties blues jam in Chicago)

I'm worried

Worried as a man can be

I'm worried

Worried as a man can be

I'm worried 'bout my baby

She going/gone away from me

Well I'm worried about my baby

And I wonder where she gone

Well I'm worried about my baby

And I wonder where she gone

I hope some day

My baby love will return

Well I hope some day

My baby love will return

I hope some day

My baby love will return

If she don't come back to me

My whole life will go to ruin

I'm worried

Worried as a man can be

I'm worried

Worried as a man can be

I'm worried 'bout my baby

She going/gone away from me
