

# Fleshgrind, Litany of Murder

I'm killing you, motherfucker!  
Suffer for your deceitfulness  
I will not take these things lightly  
As you fuck me I will fuck you

You think you are invincible  
Fuck with me and you will be dead  
You are as good as dead!  
I am certain of your death!

Deep throat my gun  
Taste the cold steel  
Pull the trigger  
you're still alive!

Take my hammer upon your bleeding head  
Cranium smashed in, spilling your blood  
Now you will die, I'll make sure of it  
what can you do, you are now dead!

Stuffing your corpse into a 55 gallon drum  
Entombed in your coffin, solidified by cement  
As your head sticks out, I will smash it in  
Your head is now severed, stuffed in your tomb!

Litany of Murder  
I am listening to you die!
