

# Fleshtized, Rise of the Fallen

Infiltrate see past our enemies spread the word of our sacred code  
To do is to die and to die is to live  
We must believe live for the fight its a warrior's right  
Stand now side by side no longer blinded by ignorance  
Growing stronger with every step knowing the power of the cause  
Mercy is for the weak  
Stay through them all striking hard demanding the fall  
Come all ye faithful the time is now  
Deliver us from our diease  
Eye to eye - we crush all of them now forget the pain up and onward  
Smashing them into the ground  
Freedom of mind without it we are nothing  
Never letting your given rights be taken  
Living everyday as if it were your last  
Forever marching on  
Rise, rise, rise - Marching on
