

# FLEX & ROBERT CICHY, FREEDOM

Take a look around...what the fuck is going on...all the tensions in the world today.  
Makes me fuckin sick...insane..

I'm sick and tired of this surveillance all the time  
It crashes my mind and these villains (are still fine)  
What I need is a movement with a quickness  
Just take a look around-you are the witness of...

Freedom!  
The meaning of life  
It's the only way we should live Freedom!  
For this we die, falling down like autumn leaves, 'cause I want to stay with you today  
Proud and shout away  
Freedom!  
Desire for life

What the fuck is going on here..?

Wake up, wake up! We have to protect ourselves  
From the demons in limos who want to put us in prison cells  
State of mind is our crime  
Get up, stand up!  
Now's the time  
To take their mistakes, deceiving fakes  
And put all this bullshit in their throats!  
We know these snakes, Ducky coward - he thinks he got the power (No way)  
Ya fake Ya just one big mistake, someday you'll have to eat ya cake!

Freedom!  
The meaning of life  
It's the only way we should live Freedom!  
For this we die, falling down like autumn leaves, 'cause I want to stay with you today  
Proud and shout away  
Freedom!  
Desire for life

Freedom is everything what we need  
Right here..right now..  
In our souls..in our minds..
