

Flexa Lyndo, Bang On The Motorcade

I've lost great things I had, putting stuff into place
No more music in my head
I feel like I was someone else

I go round
Well I'm not the same
When I bang on the motorcade
I go round, round, round

Will I decide to change my story, if nobody deigns to come ?
10 years spent for science down here and nobody deigns to come...

Bang on the motorcade
I've lost great things I had spending years in vain business

We go round
We don't have the time
We go round
We sit down side by side
We go round, we go round

Shattered dream in early morning : nobody deigns to come
10 years spent for science down here and nobody deigns to come
Could anyone ask people down here if somebody deigns to come ?
