

Flickerstick, Direct Line To The Telepathic

Hey
Look at me
I'm causing a catastrophe
But I, I just might see you and me
The headlights bright as the daydream
Hey
Look at me
I'm causing a catastrophe
But I, I just might see you and me
The excess your own celebration now
Tiny records spin, holding in, the air that you breathe
Tearing right through the seams you sew
It's getting right back to you
So let it rain, rain on
I'm causing a catastrophe
So let it rain, rain on
I'm causing a catastrophe
I got a direct line, direct line
to the telepathic now
I got a direct line, direct line to the telepathic now
