

Flickerstick, Got A Feeling

I got a feeling
It's a feeling that you'd never understand
It's like a rush to my heart
That I hope never ends
But it all depends

It's a power
Such a power
A sensation that is changing how I feel about you
It's so brand new
The fight is far from over
There's nothing left to lose

Cause I'm in charge
Let's just sail away tonight

Cause when you get what you want and you make it
Don't take it away
If you break it don't save it just throw it away
Woah uh oh just run away
Just run away

So can't you see that we're the same
Because there's no one else to blame
The only ones who can handle our share of the pain
It's just a game
I thought I'd never get away
Another trip, another day
I think I've seen you before
It's all the same
The friends they come and go
The years just fade away

So step in line
Cause we're breaking out this time
Cause when you get what you want, and you make it
Don't take it away
If you break it don't save it just throw it away
Get what you want, and you make it so take it away
If you break it don't fake it just throw it away
Woah-oh-oh just run away
Just run away
Just run away
Just run away
Just run away

I got a feeling
It's a feeling that you'd never understand
I couldn't live without the rush, it's a rush
Don't you break out, don't fake out
Don't sell out, don't sell out
You'd compromise every word you say
Cause when you get what you want, and you make it
don't take it away
If you get what you want, and you make it
don't take it away
break it don't fake it just throw it away
Just run away
Just run away
