

Flickerstick, Sorry...Wrong Trajectory

Sorry...wrong trajectory
Come back, it's a part of our chemistry.
Could you control me if you tried?
Cause its, plain to see im overboard
Thrown out, my troops are set ashore
Could you control me if you tried?
Cause you and I, we may feel surprised
To cry outloud just one more time.
Cause you're just another part of me
And somehow, I know you still believe
You could control me if you tried.
Where's your heart at now?
Cause you're always running out
When everyone seems to change
Don't you know I'm still feeling the flame
Tonight im gonna be ready for you
So lets break it down, I know the pain still lies beneath you
A coming attraction.
I wanted to see you, I wanted to be you
To be you someday.
Sorry...wrong trajectory
Come back, it's a part of our chemistry
Could you control me if you tried?
