

Flickerstick, You're So Hollywood

Well it's a common attraction
Searching for the night club scene
Cause you're so Hollywood
You're so Hollywood
And you're looking for some action
With your flash bulb eyes tonight
You're so Hollywood
You're so Hollywood she said

I got to get out of this town
Got to get my feet back on the ground
Don't want to sell my record collection
So take a look in my direction
So I'm off (off!)
I'm feeling down
It's getting tough (tough!)
You know that the getting out is getting rough (rough!)
This town is fucking with my head
You're so Hollywood she said

And it's getting close to dark now
On the Sunset Boulevard
You're so Hollywood
You're so Hollywood

With the designer medications
Just another valium in the red wine
You're so Hollywood
You're so Hollywood she said

I got to get out of this town
Got to get my feet back on the ground
Don't want to sell my record collection
So take a look in my direction
So I'm off
I'm feeling down
It's getting tough
You know that the getting out is getting rough
This town is fucking with my head
You're so Hollywood she said

So sit back and watch me rise
Higher than the moon
I'm up here all alone
Looking down at you

I got to get out of this town
Got to get my feet back on the ground
Don't want to sell my record collection
So take a look in my direction
So I'm off
I'm feeling down
It's getting tough
You know that the getting out is getting rough
This town is fucking with my head
You're so Hollywood she said

You're so Hollywood she said
