

# Flight 409, This Is War

Blood and sweat  
I've given all I've got and there's nothing left  
Where did you go when I was left alone  
I can't believe what's left of me  
I swore I'd never let this show  
Cut at the knee  
When there's nowhere left to call home

Here we sit bruised and broken again  
Would you die for me  
Cause I'd kill for you  
Can you see a reason  
Can see you see through our bleeding

Stuck in this train of thought  
Kill or be killed is what we're taught  
I'm not trying to die alone  
This is war  
This is war

Here we sit bruised and broken again  
Would you die for me  
Cause I'd kill for you  
Can you see a reason  
Can see you see through our bleeding

This is war  
This is war  
This is war  
This is war  
This is war  
This is war  
This is war  
This is WAR!

Here we sit bruised and broken again  
Would you die for me  
Cause I'd kill for you  
Can you see a reason  
Can see you see through our bleeding
