## Flip, End Complicated

I can't pretend It's OK when all is turning grey They're on their own don't Mind how you're feeling today If you're alone If you feel sad is something they don't care Keep doing your job and don't complain Try to fit in their plan

Everything that 's good I keep it locked here in my mind Now I'm over 20 and I can't help it When I was younger didn't have to care about Get a wife or get some money I could get it from my Dad Now that I'm older they say I must get a life Get a Wife To be a grown up man I wish I were 14 again
