

# Flip N Fill, Irish Blue

(Intro)

Irish Blue is the colour  
(colour.. colour... colour..)  
Irish Blue is the colour  
(colour.. colour... colour..)  
that blows my mind..

(Verse 1)

you said that we can still be friends  
you said this really has to end  
though your love for me was true  
this is something you must do  
you can't evade my every call  
and just ignore me like a fool  
here i stand with memories  
of the way it used to be

(Bridge)

break away from times of old  
like a story that's been told  
you can't share this love no more  
wont you hear me sing..

(Chorus x 2)

Irish Blue is the colour  
that blows my mind  
every day's another lifetime  
it passes me by  
Irish Blue is the colour  
that drives me wild  
how can i survive another day now  
without you in my life  
(life...life...life...)  
without you in my life

(Verse 2)

I can't erase you from my mind  
although i've tried time after time  
every moment that we've shared  
I still see them crystal clear  
my heart still cries out your name  
like it seems to ease this pain  
'though you said your love's still true  
why do you play me like you do

(Bridge)

break away from times of old  
like a story that's been told  
you can't share this love no more  
wont you hear me sing..

(Chorus x 1)

Irish Blue is the colour  
that blows my mind  
every day's another lifetime  
it passes me by  
Irish Blue is the colour  
that drives me wild  
how can i survive another day now  
without you in my life  
(life...life...life...)

Irish Blue is the colour  
Irish Blue is the colour

that blows my mind
