

Flip, Silly Song

A few years back we come out with an idea
To make a band and become our dreams so real
We never thought we would end up here
I Must admit this is still a dream

It's a silly song but we don't care
Cos in the end we just do it for the girls
It's a silly song so we don't mind
Got your money in our pockets , Goodbye

Started playin' upstairs in my house
Mum and Dad I'm sure they were so proud
Covering bands that seem like good to us
Along the weekend just trying to find a sound

We don't want your contract
In this we al agreed
Seems that you don't understand
We only want some chicks
The reason is the same for all of us
We made this band only for fun
