

# Flogging Molly, Whistles The Wind

Whistles the wind  
Blowin' my way  
Sweepin' me back, back here to stay  
Can winners be losers?  
Runnin' on the same track  
While some head for glory, others we crash

(Chorus)  
Well it breaks my heart  
To see you this way  
The beauty in life where's it gone  
And somebody told me you were doin' ok  
But somehow I guess they were wrong

My isolation  
Now there's a soberin' thought  
A minute alone, a lifetime too long  
See the face in this mirror  
So pale it could crack  
Desperately wantin' the color it lacks

(Chorus)  
So you drank with the lost souls  
For too many years  
Tied to their ankles now crippled with fear  
Never been righteous though seldom were wrong  
Life's only life with you in this song

Now there's an ocean between  
Where I am and where I want to be  
So you prayers in doubt  
Doubt not for me

(Chorus 2x)

Whistles the wind  
Whistles the wind  
Whistles the wind  
Whistles the wind

Though you'll find your way out  
But there's no goin' now  
Every woman and child  
Drags you down for the dive  
It's not safe being free  
Can't give back what you feel  
He said you'll always be in heaven with me
