

Flunk, Morning Star

You are my morning star
You are my morning star

You are my morning star
You are my morning star

You're my morning Star
It's just the way you are
When the orange sky
Kiss the night goodbye

You're my morning Star
It's just the way you are
When the orange sky
Kiss the night goodbye

You're my morning Star
It's just the way you are
When the orange sky
Kiss the night goodbye

It's not the way you move
It's not the way you walk
It's just the way you are
Oh you're my morning star

It's just the way you are
You are my morning star
Ah, ah, ah, ah, ah, ah
My morning star

You're my morning Star
You're my morning Star

You're my morning Star
You're my morning Star

You're my morning Star
It's just the way you are
When the orange sky
Kiss the night goodbye

It's not the way you move
It's not the way you walk
It's just the way you are
Oh you're my morning star

It's just the way you are
You are my morning star
Ah, ah, ah, ah, ah, ah
You are my morning star
