

Fly Banger, Blind World

When are we going to finally meet destruction
When are we gonna finally meet disorder

Pretend you're not blind and just see there's no more time

Try to make what will break
Just another fool in a blind world
Lived a lie with all the hype
Just another fool like the other ones
When are we going to finally meet destruction
When are we going to finally meet destruction
Pretend you're not blind and just see there's no more time
Try to make what will break
Just another fool in a blind world

Somewhere inside you tried to hide just another fool like the other ones just like the other ones
