You know I feel for you. You feel for me. We feel the same cause we're meant to be
There's nothin you could do to make me walk away

Cause see girl I'm always here to stay

We've been through things both good and bad

But I'll never ever leave you cold and sad

I always pray that our love will last forgive me girl for things I've done in the past

I bought you rings and diamonds and pearls.

I gave you my love and I'll give you my world

There's an answer I need for the question I ask

So give it some time if I'm moving too fast

I'm always there for you, you know. So love me back don't ever let go

I wanna be the father of your son and I'll love you girl till my life is done.
