

Fly To The Sky, My Love

The appearance that is reflecting off my eyes looks so sad
Dont turn away from me, look at me
I dont know the reason why we are breaking up but
I know you are struggling right now
*My love, just as many days we were happy,
There will be more days of pain in the future but
Believe in me, just as much as I believe in you
Because the words of farewell,
They are so painful to me My love
I cant do anything, I can only sit empty headed
I am a fool to your one word
I cant turn my love away just by you saying that you hate me
I think I know your heart too
repeat *
**Believe in me, just as much as I believe in you
Because the words of farewell,
They are so painful to me
Please bear it a little longer
I have the confidence to make you happy now
I only need you in my life My love
No matter how small your voice is
I still hear it and I wake up
Even your short small whispers
They are reasons to live My love
repeat **
