

Fly To The Sky, Nege Himi

Everyday that passes by
You are still the only one inside my heart
The sparkles in your smile
I can see heaven when I look into your eyes
You make me feel alive
You are the apple of my eye
No one else can make me feel the way you do
Deep inside of my soul
There is no life without you
I can promise you you'll never be alone
I'll do anything to give you my love
All I ever need is you by my side
Until the end of time
Whenever you need me I will always be right there
Showering you with all my love
Forever seems so far away
With you in my life tomorrow's a brighter day
All I ever need is every second with you
I can promise you you'll never be alone
I'll do anything to give you my love
All I ever need is you by my side
Until the end of time
Whenever you need me I will always be right there
Showering you with all
If anything could last all time
Is the way I feel about you girl
Time will change most everything surrounding us in life
But we will last for time
I'll do anything to give you my love
All I ever need is you by my side (right by my side)
Until the end of time
Whenever you need me I'll always be right there
Showering you with all of my love.
