Baby, please relax, take off you coat and unwind
We've got all night to be together so don't even think of the time
You got me thinkin' bout the ways that I could come and enter yo' heart
I knew that we were meant to be the day we had that walk in the park
You've got me daze, I'm still amazed that I was the one
You know that you could've had another but you chose me
Now you're all that I want, keep in mind and understand you're all that I need
So bring your loving baby girl tonight I'm down for you
