

Fly To The Sky, Retry

My baby so am I,
From the end of my small black heart that is empty in vain
I am calling you again, asking for you to fill my emptiness
Chorus-1]Come on baby come please~ Oh! baby come please~ I want to love even your pain Com
It's different now,
I want to take back your love
Admitting that I was really stupid before,
I didn't know back then so I must of been a fool
I hope it's not too late to admit that it will only leave late regrets.
You are the only one I will make you,
the owner of my love, come back
Come come come to me and feel me
I've been waiting for so long I'll give you a life that won't ever come again
Chorus-1]Come on baby come please~ Oh! baby come please~
I want to be forgiven as much as the wrong I've done
Come on baby come please~ Oh! baby come please~
I want to change now, if it's for you
Your world that you showed me without regret is no lie
You've dominated me with your small breath I've realized it all now
Love redemption got my heart sick
Now I can't see the light of day-love bit
Daddy said don't you know things move in cycles
So it's vital I get my word out
See you comin' in flashes... no doubt
I jonesin- reminiscin Childhood memories-no lie
Let's retry what you and I had days gone by til the day I die...
Regret ain't nothing but a word
The sakes I got keeps cloggin' up my third
Admitting that I was really stupid before,
I didn't know back then so I must of been a fool
I hope it's not too late to admit that it will only leave late regrets.
*Chorus-1] *Chorus-2]
