

Fly To The Sky, Should I Stay

my love, where did you go?

Baby~ baby~

all our sad memories are still at that spot

do you remember the falling tears. that day i gave you a kiss

until forever, i want to hug you inside of my heart

you won't know how much i longed for you

in this rugged world, will i be able to live without you?

* How much I love you~

How many time~

the time we spent together, i'll protect them forever

Forever~ And I love you~ Baby baby

when i end my wanderings, i will cherish the memory of our love that was so important

Baby~ Should I stay...Should I go...

Should I just try~ Should I stay...

Should I go....Should I just try

in many days will you be happy without me?

Baby~ baby

your sad scent, it'll still be in my nature(mind)

where the snow fell last winter, the snow where you left me

like the old times, can't you come back to me?

you won't know how much i longed for you

in this rugged world, will i be able to live without you?

* Repeat

Should I stay..Should I go...Should I just try~

Should I stay...Should I go... Should I just try
