

Fly To The Sky, Shy Love

Even though I couldn't confess my love to you today

Every night I'm always thinking of you.

From afar I see you walking closer

If only this moment lasted forever

I would want to show you how I truly feel.

When I'm by your side, I can't even talk to you..

I just want to stare at your face.

(*Chorus) I always will treasure your laughing/smiling face

Every time I see your smiling face I want to tell you..

Truthfully, I like you

And I'll always look after you..

(Rap) Why even try ? Is the question on my mind.. Every time I see you near, My body freezes and

Can you stay the way you are

One day I will show you how I truly feel about you from the bottom of my heart..

(*Chorus)

(Bridge) You told me to go back in if I didn't tell you what was on my mind

I wanted to say that we should have a closer relationship..

Now I can confess..

The words I could not say..

Forever .. I'll look after you
