

# Fly To The Sky, When I Say

When I say Luv you forever  
baby I want to love you  
This blue sky is what I give  
My last present  
Just tell me I love you  
When I say I want you forever  
baby I want to kiss you  
Makes my heart race  
My one and only love  
I already know what you're going to say  
I knew way before you  
Fall in Even though I worked hard to try and hide it  
You've already been caught by me  
Just one more walk, just two more walks  
A little closer to my side  
Even if you say you have no confidence It's alright It's okay  
You're lovable girl  
When I Say I Luv you forever  
baby I want to love you  
This blue sky is what I give  
My last present  
Just tell me I love you  
When I Say I want you forever  
baby I want to kiss you  
Makes my heart race  
My one and only love  
You still are hardly coming and hardly saying to me  
My heart is worried sick  
Felling Even if you grab my hand truthfully  
I will never fail again  
Because I like you, Because I love you  
I will try to wait whenever  
Even if you say I'm a fool It's alright It's okay  
I like it if it's together with you  
When I say I need you forever  
baby Eternally Forever  
Even if four seasons pass by we  
Like the first whenever  
Just tell me I love you  
When I say I like you forever  
baby Please accept my sincerity  
Won't you stay with me girl forever  
Only you live in my heart  
Just tell me I love you
