Actually I saw you rollin' in your ex's SUV
smiling with a man as if you was meant to be
naturally I wouldn't do this but uh
forgive me if I stutter I hope you get a nasty
that's how much I hate you with another man
don't you think my love is better than the man
you're with it's a mystery
I don't understand you like
I study physics and chemistry

Girl you got me hooked cause I'm dying without you
and every time I'm out girl I'm thinking about you
I've tried real hard to get you off my mind
but I still think about you all the time
how you gonna act chill when you know you was wrong
and when you out having fun girl I'm sitting at home
and now I know how you are always sleeping around
It's all good baby girl cause I'm standing my ground (what)
