

Flybanger, Weapon

She sit's at home with her hunger spread like a map of the world
such a radical figure
I cannot reach her at all
there's no sense so intense
and every time that I activate this person shuts me down.

Said I'm alone again
said I'm alone again
now I'm alone with my visions
so I'm alone again
yeah am alone again
the weapons in control

She wants me to die spitting
She wants me to load her favorite gun

She's got it down to a system
and every time it's the same that pushes me to a limit an injection to the brain

Heavy load passed away and every time that I activate this person's drives me insane
Said I'm alone again
said I'm alone again
now I'm alone with my visions
so I'm alone again
yeah am alone again
the weapons in control

She wants me to die spitting
She wants me to die sinning
She wants me to burn like a villain
She wants me to load her favorite gun
