

# Flybanger, Weapon

She sit's at home with her hunger spread like a map of the world  
such a radical figure  
I cannot reach her at all  
there's no sense so intense  
and every time that I activate this person shuts me down.

Said I'm alone again  
said I'm alone again  
now I'm alone with my visions  
so I'm alone again  
yeah am alone again  
the weapons in control

She wants me to die spitting  
She wants me to load her favorite gun

She's got it down to a system  
and every time it's the same that pushes me to a limit an injection to the brain

Heavy load passed away and every time that I activate this person's drives me insane  
Said I'm alone again  
said I'm alone again  
now I'm alone with my visions  
so I'm alone again  
yeah am alone again  
the weapons in control

She wants me to die spitting  
She wants me to die sinning  
She wants me to burn like a villain  
She wants me to load her favorite gun
