

Flying Circus, I Am Free

Run away and join the circus
Learn to fly, yeah learn to fly
Run away just to see if
I can do it by myself
Run away, play the guitar
Make it cry, yeah make it cry
Run away, I'm playing my songs
I'm playing my way, every day
'Cause I am free...
Just a monkey on my back
Get him off me, get him off me
Just the devil on my shoulder
Saying "If you wanna make it,
You better play like everyone else"
But I am free...
Just a shrug and a whisper
Get inside it, you can't hide me
Just the look of a blind man
And his blinded following
But I can see...
I am free...
