

Flying Lotus, Medication Meditation (ft. Krayzie Bone)

I [?]
Never can hold me down
I'm locked [?] the galaxy
Nothin' can slow me down
I'm chillin' out with the stars
Feelin' like I'm on Mars
[?] spaceships
You niggas still stuck in your cars
While you mash off, I'mma blast off
I'm a lap dog, cause I pass y'all
In my own zone, call it Bone zone
[?] tip of my mind
[?]
[?] the design of a mastermind

Because I'm goin' higher my niggas can only imagine
But they never could see it
And that's cause my harmony melodies [?] classics
So that mean I'mma be here
Now look at me now

Medication, and have some meditation
Take another [?] to the perfect elevation
Medication, and have some meditation
Take another [?] to the perfect elevation
See they don't really know how high I go
Let me remind you niggas I stay high
