

FlyKiller, FlyKiller

Daddy
was a great captain
commander-general
and, a
FlyKiller (kkiller killer)
Never left a bridge before midnight,
but
 what do I know about
me..
with my bike
The crew would put on their brave faces
3 Monkeys
Blind,
Deaf
and Senseless
and you...
Where did you get that scrratch?
Climbing trees?
FlyKiller
Never left a bridge before
FlyKiller..
Where did you get that scratch?
climbing high trees?
climbing caste,
your cast is later
4x4 leather seats..
and, a blonde on my arm
although,
I miss the air after rain
in my spacecraft
now as I cruise
the sort of
the thought of future makes me feel
Insecure
makes me feel
Uncertain
Those very few things
we believed would never change:
The way you put your face to the sun.
FlyKiller...
Never left the bridge before
FlyKiller
I keep my left hand
on my private emergency button
I could have myself locked up and safe
safe and secure
come back,
4x4 disperse, come back and cruise again
FlyKiller...
Never left the bridge before
FlyKiller...
