

FlyKiller, Shine Out

I fight a chance
I take the chance
I am on my knees
Before I realise the whole world twists you squeeze
The living light out of me until all I hear
Is never ending litany of your complaints:
Oh you can do it baby yes,
shine out shine out
Come one and give it to me, yes,
shine out shine out
And all I hear is baby, yes,
shine out shine out
Oh you can do it for me, yes,
shine out shine out
The years are passing and I am not getting any prettier
It's just the wine that draws new figures as we drown in pity
I burn a cigarette right where it hurts the most
And all I hear is same lame simple words
Oh you can do it baby yes,
shine out shine out
Come one and give it to me, yes,
shine out shine out
And all I hear is baby, yes,
shine out shine out
Oh you can do it for me, yes,
shine out shine out
We play the echo game again
You rule and I divide myself
To cut the end the sooner comes the light
the bottle spills the sky but it just doesn't stop
I am trying harder
just to shine till the last drop
