

FM Static, Take me as i am

This time I finally see the reason why
I can't do this alone
It took some time and concentration
To believe it, this I know.
I need to build my faith sometimes
But I am so comfortable in line
I'm up there's no more time,
To try to mess with this design
Two nights compete everyone's asleep
and I don't want to say these words to you
I'll be your hand take me as I am
I just wanna be with you
Take me as I am cause I'm going
I was too scared to start now
I'm too scared to let go
Take me as I am, cause I'm growing
but its so hard to tell when I'm not used to this soul
Take me as I am, cause I'm going
I was too scared to start now I'm too scared to let go
Take me as I am, Cause I'm growing
but its so hard to tell when I'm not used to this soul
I lift my voice to sing out
Let the sound of my heart bring out
These hands aren't holding me down
Never again will I be with out
I need to feel my faith sometimes
But I am so comfortable in line
I'm up there's no more time
To try to mess with this design
Two nights compete everyone's asleep
and I don't want to say these words to you
I'll be your hand take me as I am
I just wanna be with you
Take me as I am, cause I'm going
I was too scared to start now
I'm too scared to let go
Take me as I am, cause I'm growing
but its so hard to tell when
I'm not used to this soul
Take me as I am, cause I'm going
I was too scared to start now I'm too scared to let go
Take me as I am, cause I'm growing
But its so hard to tell when I'm not used to this soul
