

Foals, Life Is Yours

Now that I'm less hungover
I can finally hear all the words you say
Driverless cars all end up in the ocean
Even when they think they know the way

Now that the great storm is over
I can finally learn all the things you know
All good roads lead us back to the ocean
Even if you cannot bear to go

Life is yours
Break away
Life is yours
I heard you say

Now that I've proved my devotion
I can see the start of a brand new day
At the edge of the Pacific ocean
Life is yours, I heard you say

Life is yours
Break away
Life is yours
I heard you say

Life is yours
Break away
Life is yours
We'll find away

The choice is yours
Don't be late
Escape yr fate
And break away

The choice is yours
Don't be late
Escape yr fate
And break away

Life is yours
Break away
Life is yours
I heard you say

Life is yours
Break away
Life is yours
I heard you say
