

# Fold Zandura, Way You Are

the way you are, the way you are

the way you are, the truth you are

something's telling me "face the sun"

how I long to be in a world

if eternally you could love someone

who would be with you

the life you are, the truth you are

the life you are, the way you are

the life you are, the way you are

the truth you are, the life

the way you are
